

## **THE KAROVAS MILKSHAKE**

**(official press release)**

A garage/psyche act heavily rooted in the 60's sound. Their frantic rhythm'n'blues has been gradually moving in the direction of psyche in the last couple of years and perfected by playing countless shows and recording sessions.

Their first single 'Locomotion' (2011) was recoded at analogue studio in Moscow, while 'Freakout Factory' (2012) was taped at their own Kaleidoscope Eyes Records studio and released by Chickpea Records on vinyl in New York. The band has toured widely around Russia and played a mindblowing gig in Prague.

Currently they are recording their debut LP.
